Lift Regulations Conformity to Type (Module C2)

No. UKCA 758985

This Certificate for Conformity to type with random checking is the part of the conformity assessment procedure whereby a notified body carries out checks on safety components for lifts to ensure that they are in conformity with the approved type as described in the type examination certificate and satisfy the applicable requirements of Schedule 1 of The Lifts Regulations 2016 and will enable a lift in which they are correctly incorporated to satisfy those requirements.

The following list of safety components are covered at the site as detailed on page one of this certificate and additional manufacturing sites as detailed below as part of the conformity assessment procedure:

No.	Certificate No.	Safety Component Model	Manufacturing Site(s)
Safety circuits containing electronic components			
1	UKCA 758988	Safety circuits containing electronic components model UMD - SRB02.	Coomber
Protection against unintended car movement (UCMP)			
2	UKCA 758990	Protection against unintended car movement (UCMP) – model UMD - SRB02 - Subsystem - Detection and activation only.	Coomber
This Certificate is only valid when evidence of surveillance by an approved body is continued as a minimum on an annual basis covering the product(s) at the manufacturing site(s) as detailed within the Certificate.			
Manufacturing Site(s)			
Coomber			
Coomber Electronics Ltd. Unit 13 Ball Mill Top Business Park Hallow Worcester WR2 6PD			

First Issued: 2022-12-13
